

12/6/2020 - Did the Democrats really think that the Patriots, The Real Americans are going to stand by and let this fraudulent election remove our duly elected president from office then they have another thing coming, which is why I'm trying to gather for five people I think I could possibly get six in my truck to take a trip to Washington DC on the 12th and coming back on the 13th after the stop the still rally at the White House oh, I'm looking for Patriots that want to go and show their support from our great state of Mississippi and show our patriotism and love for the president that we all duly elected. 75 million people will not be robbed about the corrupt Democrat Party and all the special interest groups they have trying to steal this election from Real Americans if you're interested let me know we can go in my truck split the gas and be part history, apart of something that's going to change our country forever and I hope many people would be ecstatic about being able to attend this rally. If you're interested in it shoot me a message I'm looking for five or six people to make the trip leaving on Saturday the 12th coming back Sunday probably going to be late but we will be back by Sunday. This is your time to show

your love for not only your country but everything our country stands for. It's time to stop the steal and show these people that we will not be ignored, we will not be robbed and most importantly we will not allow Joe Biden and Kamala Harris into our White House these people cannot and will not be our president and we need all the able-bodied people we can to go and show our support for Donald Trump!
